

## Rapid FP216 - FENCE PLIER for thin wire fencing

The Rapid Fence pliers are both combining exceptional comfort level, easy & fast use system and durability. All answers to your needs when fixing fences.

Handy, with high capacity magazine and easy quick load system, **FP216** is ideal for longer areas of lightweight and medium chain link mesh on tensile wire. This plier will help you for applications like pet protection (i.e. barnyard, pasture, breeding) or securing garden and terrace screens on fence

## Features :

- Soft grip and ergonomic handle for high comfort level even during long use.
- Built in hard steel to permit extra durability even with intensive use.
- Locking hook to keep plier closed and save storage space.
- Easy and quick load with full strip of hog rings.
